

G9910 Adjustable Hydraulic Cable Drum Jack

G9910

- Precision adjustment of drum diameter & height enables quick set-up across varying reel sizes, reducing change-over time.
- Hydraulic lifting – smoother, more controlled than manual methods – improves site safety and reduces risk of injury or damage.
- Heavy-duty alloy steel construction and robust components mean less maintenance, longer service life and lower total cost of ownership.
- Designed for cable-yard and on-site applications – ideal for utilities, contractors, telecoms and heavy-cable installation teams.

Specifications	G9910-3T	G9910-5T
Max Axis Height	1.1m	1.3m
Rated Load	3 Ton	5 Ton
Weight	50 Kg	60 Kg
